

Scope

This course is intended for officers and key ratings who have not previously served on board liquefied gas tankers as part of the regular complement. It covers the mandatory minimum training requirements prescribed by regulation V/1 paragraph 2, of the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, 1978 (STCW) as amended and it includes basic safety and pollution-prevention precautions and procedures, layouts of different types of liquefied gas tankers, types of cargo, their hazards and their handling equipment, general operational sequence and liquefied gas tanker terminology.

Objective

The syllabus of this course covers the requirements of the IMO Model course 1.05 and the 1995 STCW Convention Chapter V/1-2.2, Section A- VI/1 par. 22-34.

Successful completion of this course should enable trainees to serve on liquefied gas tankers in a capacity other than master, chief engineer officer, chief mate or second engineer officer, and to perform specific duties and responsibilities related to those duties in connection with cargo and cargo equipment, provided that they are not immediately responsible for the loading, discharging, care in transit or handling of cargo.
